Palembang, Sumatera Selatan

An information system student who is very enthusiastic and always wants to hone personal skills and learn new things by participating in organizational activities, bootcamps and competitions. I am a disciplined person, attentive to details, able to work individually or collaboratively in groups. I am eager to learn new technologies and tools, and to share my knowledge and skills with others. I am looking for opportunities to implement my skills as a software developer in a dynamic and collaborative environment that values innovation and quality.
